

*"Since my first trip in 2003, Viking Lodge in Cranberry Portage, Manitoba, has become a summer tradition with friends and family that is woven into the fabric of our lives. Surrounded by the serene landscapes and diverse wildlife of Northern Manitoba, the trip becomes a sanctuary where family and friend bonds are strengthened amidst the beauty of the natural world.*

*One of the crowning jewels of our Viking Lodge experience is the exceptional quality of the fishing. Over the years, the fishing has not only remained consistently good but has continually improved. It's not uncommon for someone in our group to catch a master angler fish almost every year, showcasing the abundance and high caliber of the fishing experience. Most days on the water, both the young and the "experienced" anglers find joy in a walleye, lake trout, and northern pike trifecta. Manitoba's commitment to conservation to maintain and enhance the fishing opportunities adds an exciting and fulfilling dimension to our annual expeditions. The quality of the fishing is simply outstanding.*

*The full week spent at Viking Lodge is not only a time for fishing but also an opportunity for connection. The lodge becomes a hub of activity, fostering relationships that extend beyond the fishing boat. Whether we are swapping fishing tales, enjoying delicious shore lunches together, or simply hanging out on the deck after a day of adventure, the immersive connection with nature creates an unforgettable family bonding experience.*

*The owners of Viking Lodge go above and beyond, tirelessly working to create an environment where everyone can have an enjoyable outdoor experience. Their passion for the lodge and its guests is evident in every detail, from the well-maintained facilities to the personalized service that makes each visitor feel like a cherished member of the Viking Lodge family.*

*Viking Lodge has become more than a destination; it's a vessel for creating lasting memories, a legacy of love for nature, shared adventures, and the joy of spending quality time with family and friends. The echoes of laughter and the thrill of catching that special fish resonate through the years, making each visit a chapter in our family's enduring legacy." - Blair Abney*
